

About us

Curriculum and Instruction at North Pike School District is guided by the Mississippi College and Career Readiness Standards. The CCRS establishes a set of educational standards for Kindergarten through 12th grade in English/Language Arts and Mathematics. The standards are designed to ensure that students graduating from high school are prepared to enter a two year or four year college program or enter the workforce. The standards ensure that parents, teachers, and students have a clear understanding of the expectations of what students are to learn at each grade level.

NPSD educators and administrators strive to develop CCRS lessons, examine data and utilize evidence-based strategies that will strengthen teaching and learning. Implementing curriculum resources will ensure success for a diverse student population, deliver differentiated instruction, and foster learning to maximize individual student growth.

Teachers promote the growth and learning of all students through instructional practices that establish high expectations, creates a safe and effective classroom environment, and demonstrates cultural proficiency

Curriculum and Instruction

Curriculum Provides a blueprint for learning which teachers can follow when designing instruction

Curriculum helps an educator meet community, parental, and student expectations

Curriculum should aim to:

Provide knowledge and develop skills, attitudes, values essential to personal development and necessary for living in and contributing to a developing and changing society

Provide learning experiences which increase a students awareness and responsiveness to the changes in society
